

Bansari Pathak

Software QA Engineer

+91-9558887341 | trivedibansari01@gmail.com | Bengaluru, INDIA | Experience: 4 Years 5 Months | <http://linkedin.com/in/bansaripathak>

Profile summary

Software QA Engineer with 4.5 years of experience and ISTQB CTFL & AI certifications. Skilled in functional, regression, and mobile testing, with expertise in defect tracking using JIRA and performance analysis through AB testing. Experienced in cross-browser testing and cloud-based database validation on platforms like Snowflake, delivering high-quality solutions in agile environments. Developed and refined test cases to enhance the effectiveness of manual software testing through consistent and comprehensive methodologies. Managed various activities in all the stages of software development & testing cycle in diverse domains.

Skills

ISTQB

Functional Testing

Regression Testing

Software Testing

Defect Tracking

JIRA

Agile

Salesforce Testing

Database Testing

STLC

API Testing

ETL Testing

Black Box Testing

Microsoft Azure

Asana

UI UX Testing

Certifications

- Certified in Manual Testing and Automation testing with selenium
- ISTQB AI
- ISTQB Certified Foundation level
- ISTQB Certified Artificial Intelligence

Work Experience

Software QA Engineer — Pingtree LLC

May 2024 - Jan 2025

Ensure that all design elements (e.g., typography, colors, images, buttons) match the design specifications. Verify the positioning, alignment, and consistency across different sections of the website. Test the website's performance on mobile devices using the same tools (Page Speed Insights has a mobile section), as mobile users are a significant portion of web traffic.

QA Software Engineer — Relanto Global

May 2023 - Mar 2024

Software QA Engineer — Celtic Systems

Feb 2021 - Apr 2023

Software QA Engineer with 4.5 years of experience and ISTQB CTFL & AI certifications. Skilled in functional, regression, and mobile testing, with expertise in defect tracking using JIRA and performance analysis through A/B testing. Experienced in cross-browser testing and cloud-based database validation on platforms like Snowflake, delivering high-quality solutions in agile environments

QA Tester — Wolfsoft Pvt Ltd

Jul 2020 - Feb 2021

Managed various activities in all the stages of software development & testing cycle in diverse domains i.e Retail, online marketing, e-stores app. Involved in defect reporting, defect tracking and defect reproducing.

Assistant Professor — K.J.I.T College

Dec 2017 - Apr 2019

Assist the department in designing a high-quality curriculum that meets the needs of the industry. Mentor the final year engineering students for their industrial program.

Projects

Data Pipeline Validation	305 Days
---------------------------------	-----------------

Worked on validating sample data pipelines in Snowflake by comparing raw data with transformed datasets to ensure accuracy. Wrote basic SQL queries to verify that the data loaded into Snowflake matched the expected results. Supported the team in performing manual data testing for reports generated from Snowflake.

Software Testing and Evaluation	758 Days
--	-----------------

Evaluated the functionality and compatibility of new software or updates against current applications. Developed and refined test cases to enhance the effectiveness of manual software testing through consistent and comprehensive methodologies. Implemented diverse APIs to conduct tests on various frameworks.

Software Development & Testing Cycle Management	215 Days
--	-----------------

Managed various activities in all the stages of software development & testing cycle in diverse domains i.e Retail, online marketing, e-stores app. Involved in defect reporting, defect tracking and defect reproducing.

Dark Data Anaylsis To Reduce Data Complexity In Big Data	335 Days
---	-----------------

Big data is a large amount of data which is hard to handle by traditional systems. It requires new structures, algorithms and techniques. As data increases, dark data also increases. Dark Data is properly used as unused data for large amount of data. Main aim of the project was to Identify and manage Dark Data from main data source to make easier access and reduce complexity of the data. As part of current project Hadoop technology has been used to analyze Dark Data Complexity for 1 GB data provided.

Education

M.Tech Computers	2017
parul university	
Grade - 7.2/10	

B.Tech/B.E. Information Technology	2015
GUJARAT TECHNOLOGICAL UNIVERSITY	
Grade - 7.8/10	

12th	2011
Gujarat, Gujarati	
Marks - 70-74.9%	

10th	2009
Gujarat, Gujarati	
Marks - 85-89.9%
